Dear Cindy and Tom,

On behalf of all at Cotlands, a heartfelt thank you for your wonderful donation of facilitation manuals and training to the value of R 15 105.00

As the AIDS epidemic has burgeoned, more and more non-profit and community based organisations have opened to assist those affected. To eliminate duplication and reduce the time operations such as community based projects, NGO's, educational institutions and faith-based groups spend on sourcing knowledge and training their staff, Cotlands shares our knowledge and skills.

This process has been formalised with the accreditation of Cotlands as a service provider through the Health and Welfare SETA (Sectoral Education & Training Authority) in accordance with legislation and compliance with the National Qualifications Framework (NQF) and South African Qualification Authority (SAQA).

Training practitioners offer courses and workshops in activities such as understanding HIV and its implications, lay counselling, helping the bereaved child, Home Based Care and establishing and developing the Early Childhood Development Centre.

In instances where Cotlands is engaged to build capacity in new or existing organisations, these organisations are assisted to implement their programmes, from the needs analysis stage through to the implementation and management of the project.

As you can see, this workshop is most beneficial to the team and is sincerely appreciated. This Kindness will make a real difference to ensuring that the work continues to roll out to meet the community's needs.

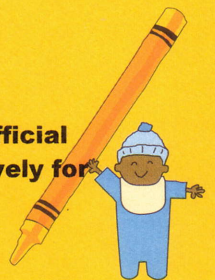

Once again, thank you so much

Yours sincerely

Rochelle Van Heerden
Fundraising Manager
